Senate Bill 549
\$500K to
Nevada
libraries!

2ND TUESDAY (of the month) COMMUNIQUE

FROM: the State Library Development Team

TO: State Council on Libraries and Literacy - SCLL

2017 Legislature approves SB 549: 63 Yeas 0 Nays

The Heart of a Teacher Senator Joyce Woodhouse from Henderson, Chair of the Senate Finance Committee hearing testimony on SB549 sponsored by the Senate Committee on Finance.

On June 2 the Senate Committee on Finance introduced SB 549. The bill makes a \$500,000 one-shot appropriation to the State Library for collection development, databases, bookmobiles and emerging technology.

"Nevada libraries have seen over 9.7 million visits in 2016, funding an additional \$500,000 over the biennium will allow libraries to enhance current services, develop today's workforce and continue to decrease the digital divide," said Carson City Library Director Sena Loyd.

On June 4 Las Vegas Assemblywoman Maggie Carlton, Chair of Ways and Means, heard testimony

from numerous Nevada Library Association members, two representatives from the State Council on Libraries and Literacy and Senator Moises (Mo) Denis -- all in detailed support of the bill.

"As one who has been associated with the Nevada Library Association since 1969, there is no question that this funding benefits library users of all ages in every nook and cranny of our state," said Council Vice-Chair Nancy Cummings Schmidt.

The Business Director of the Carson City Library, Diane Baker noted that collection development resources would double the Carson City library's current collection development grant and further leverage more database resources.

SB 549 went to the Assembly floor very late that night and passed unanimously. This is the first allocation to the State Library for the three line items: collection development, bookmobiles and databases and an all new resource category related to emerging technology, in over 14 years. The measure is now with Governor Sandoval.

As one who has been associated with the Nevada Library Association since 1969, there is no question that this funding benefits library users of all ages in every nook and cranny of our state.

NEVADA KNOWLEDGE AND INNOVATION CENTER

A VISION FOR A 21ST CENTURY INSTITUTION

The background image shows a large, light-colored building with a prominent central dome and classical architectural features. The building is set against a backdrop of snow-covered mountains under a clear sky. In the foreground, there is a paved area with some parked cars and a yellow school bus. A semi-transparent blue rectangle is overlaid on the image, containing the text.

PURPOSE

Knowledge and Innovation requires information and a workforce able to process and create knowledge from that information.

- Ruth Metz Assoc.

PURPOSE

The proposed Knowledge and Innovation Center is about rethinking purpose, reimagining possibility, and refocusing resources to make State Government even more effective for Nevada and Nevadans.

👍 bonus!

UNR's Mathewson IGT Knowledge Center @Reality team is joining the NV XR Libraries pilot as expert coaches, available for 1:1 troubleshooting and more. Thank you, Luka & Michelle!

The Nevada State Library received an XR set up and will join the group to make 12 pilot libraries for the year-long program!

Each pilot library partner will ALSO receive an Oculus Rift and Oculus Go (!)

Each library received a hygiene kit!

Word for Word 🗣️

Instruction

The instruction was very informative and hands-on.

The training was very insightful on how to present VR to patrons.

Fool proof quick set-up and run instructions in print provided with (not after) the hands-on walk through would be helpful.

I believe this will be of high interest and am eager to discover programming potential, as I become more familiar with the technology.

There are a wide variety of applications that can be used in a wide array of ways, the XR Coaches have been very helpful and approachable in this process.

XRLibraries have been great!

Libraries = Education all about the content

Patrons should enjoy interactive 3D learning more than a standard stationary book.

I'm satisfied that expanding resources to technology for our patrons, enhances learning and improves services.

I believe this will be helpful to some patrons.

I imagine this will be very entertaining and can help (especially lower income patrons) develop greater digital literacy.

The content offers potential opportunities for programs to tie into education, science, biology and art.

Libraries are finally on the cutting-edge instead of trying to catch up.

This content will keep us up to date.

From the testimonials I hear, it is valuable in improving library services.

So far so good! I love the sample lesson plan and the blank lesson planner.

Resource Management

By allowing public hands on to technology they might not have the resources to normally use will help improve library services to the public.

Our library would not be able to provide VR services without XRLibraries.

I believe this will introduce more technology into the country and will pave the way for the introduction of more technology in libraries.
